

Business objectives

Establish framework for businesses that operate water recycling and reuse systems in global markets

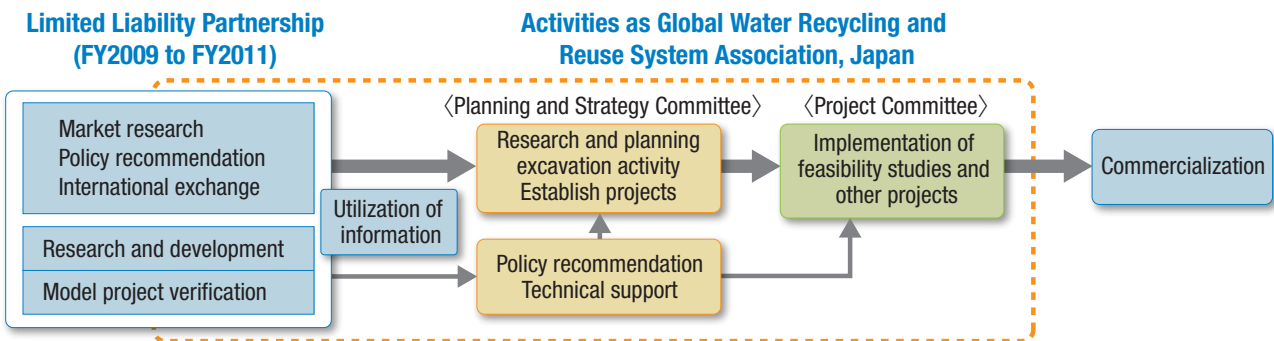

- 1) Work with industry, government, and academia in Japan and overseas to collect information and propose policies
- 2) Establish projects and formulate and implement plans for overseas business operations

Framework for Managing Activities

Activities

The limited liability partnership established in November 2008 was reformed as a general incorporated association in February 2012. Acting autonomously, the association is proceeding with the formulation of plans based on feasibility studies utilizing the information obtained from past market research, research and development, and model business trials.

GWRA's major activities

Project-finding activities

- Feasibility Study for the Waterworks Construction Project, Da Nang, Vietnam (a JICA-assisted project)
- Feasibility Study for the Waterworks PPP Project, Ha Nam Province, Vietnam (a METI-assisted project)
- International Promotion Project for Indonesia's Waterworks Industry (in collaboration with the Ministry of Health, Labour and Welfare)
- Myanmar Project Investigation (by Water quality measurement and Training Center, etc.)

International exchange activities

- Participation, announcements, and presenting proposals at international seminars sponsored by the Association for Communication of Transcultural Study
- International standardization activities (waterworks and sewerage assets management, crisis management, and water quality accident detection)
- Overseas companies invitation to Japan for interpersonal exchange
- Global market research

Collaboration with the central government

- Ministry of Economy, Trade and Industry: Cooperation for intergovernmental dialogue regarding APEC responses and other infrastructural projects, and cooperation in multilateral negotiations related to the WTO's lifting of environmental commodity customs, etc.
- Ministry of the Environment: Participation as a private-sector advisor in evaluating the Asian water environmental project
- Ministry of Foreign Affairs and JICA: Collection of information on ODA and other projects
- Ministry of Land, Infrastructure, Transport and Tourism: Exchanging views on overseas PPP projects
- Local governments: Exchanging views and collaborating on overseas expansion
